Manitoba Riding for the Disabled Association provides accessible horseback riding to children aged five – fifteen with a variety of abilities. Children in the program may be diagnosed with Autism, ADHD, FASD, Cerebral Palsy, Epilepsy and Seizures and more. The program is run by over one hundred dedicated volunteers including side walkers, leaders, therapists and CanTRA (Canadian Association of Therapeutic Riding) certified instructors.

MRDA is currently seeking volunteer Speech Language Pathologists, Psychologists, Occupational Therapists and Physiotherapists to help with the program facilitation. Duties include helping to oversee rider assessments as well as program support. No horse experience is necessary! Sessions run Monday and Wednesday evenings in the Spring and Fall out of West Wind Stables in Oak Bluff. For more information, please contact Kristy McFee at (204)470-6108 or [exedir@mrda.cc](mailto:exedir@mrda.cc)
