

MILESTONES
THERAPY

Milestones Therapy

Is hiring for the position of SLP in our private practice.

We are a multidisciplinary, sensory-friendly clinic and we are seeking 1 enthusiastic SLP for immediate, flexible, part-time work.

You will be responsible for planning and providing assessment and therapy sessions using a client-centered and goal-orientated approach for primarily child and teen populations with adult clients available if that is within your interest and we have additional needs. Additional responsibilities include consultation with other professionals as required, parent/caregiver and teacher/SLA education and training on an ongoing and regular basis, and maintaining clear and appropriate documentation as well as client confidentiality. Travel within MB for a few days, 3-4 times per year may be required. Availability at least one weekday evening and/or Saturday is an asset. Your caseload otherwise will be within our clinic, may include virtual sessions (which could be within your home), and may include some off-site settings.

Qualifications:

Masters degree in Speech-Language Pathology/Communication Disorders

Registered with CASPLM

Eligible for registration with SAC-OAC

Excellent oral and written communication skills in English

Well-organized with effective time management skills and problem-solving skills

Ability to work independently

Ability to assess, diagnose and treat individuals with language and speech delays and disorders (including with CAS and ASD populations), cognitive-communication impairments and social skills impairments.

Experience with, or willingness to develop skills in NLA and Sensory Processing are assets.

Must hold a valid driver's license

Must hold, or be willing to hold, appropriate liability insurance

Please send resume and references to Danna Kaplan
